- Fold the cotton and wipe the lower lip from bottom to top. Then wipe the upper lip from top to bottom.
- Repeat if necessary.

1. SKIN CARE APPLICATION:

Act on the heart of the skin for long terms actions

Preserve the smile's youthfulness with instant replumping skincare

COLLAGENIST LIP ZOOM
with pro-Xylitol
replumping lip balm
instant volumizer
anti-wrinkle
pro-vitane™

EXPERT ADVICE

Apply the product on and around the lips.

Use the thumb and index finger to firmly pinch around the mouth, perpendicular to wrinkles.

Place added emphasis on the upper and lower lip contour.

"These RE-SHARPENING PINCHES help to re-plump and to reduce wrinkle depth. They also help to restore the upper lip's volume."

2. MAKE-UP APPLICATION:

For an instant visual effect

Depending on the client's request (or mirror diagnosis), choose between the two results (a PERFECTLY DESIGNED SMILE or a LUSCIOUS LUMINOUS SMILE).

FOR A PERFECTLY DESIGNED SMILE

1/ UNDERLINE AND RESHAPE

- Shape the lip contour directly with lip brush.
- Start by the heart of the upper lip and the corners.
- Then join these two parts to achieve the contour with brush.

2/ COLOUR

- Apply WANTED ROUGE with a brush, colouring the entire lips up to contour.

FOR A LUSCIOUS AND LUMINOUS SMILE

1/ COLOUR AND REPLUMP THE LIPS

- Apply WANTED ROUGE with a brush putting colour intensity in the middle of the lips and reshape the corners, when mouth is a little opened, to avoid an excessively pouty look.

2/ BLEND THE COLOUR FOR LIPS WITHOUT ANY DEFINED CONTOUR

- With the tip of the finger, blend the lipstick, colouring right to their natural contour.
- The aim is to shade the lips in varying intensities without a distinct, artificial line around the contour.
