TECHNOLOGY

THE POWERFUL ASSOCIATION OF
VEGETAL STEM CELLS
AND
BIO-CELLULOSE

Bio-cellulose patch
(photo internal use only)

Bio-cellulose: dense network of fibres possessing a 3D structure similar to the layers of reticular tissue in the skin with exclusive properties:

- **Regenerating power*** to promote skin repair.
- **Soothing power*** to appease inflammatory signals, source of hyper pigmentation.
- **Perfect fusion with the skin** to infuse the formula intensively and evenly while providing a sensorial feeling to the skin.

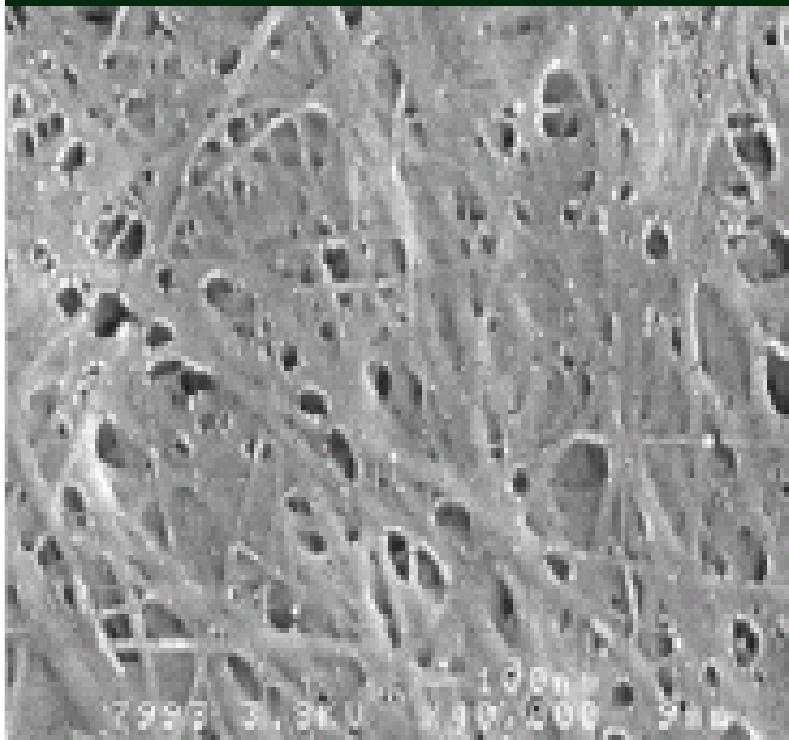

What is Bio-cellulose?

A special type of cellulose made only by aerobic fermentation of Acetobacteria:

Biocellulose is a **natural, renewable material, lying totally in green chemistry** and sustainable development.

Main properties of Bio-cellulose:

- Good adsorption / desorption of liquids,
- High resistance to stretching,
- Good permeability to air,
- Perfect match with the skin (great permeation and moisturizing effects).

Bio-cellulose

PRODIGY POWERCELL EYE URGENCY THE SOS EYE PATCH HOW TO USE IT?

WEEKLY:

In the morning or at night for an instant anti-fatigue result and rejuvenation of the eye contour

AS A CURE:

6 consecutive days for a reinforced youth grafting of the eye contour

POWER BEAUTY
SINCE 1902

PRODIGY POWERCELL EYE URGENCY THE SOS EYE PATCH SPECIFIC RITUAL

1- MICROCIRCULATION ACTIVATION

Working on both eyes at the same time, tap gently and rapidly on the skin around the eye to activate the microcirculation.

2- PATCH APPLICATION

Apply the patch close to the inside corner of the eye, taking care to cover the whole lower area of the eye contour (including the bag).
Dual use on either side depending on area of need.

Leave for 15 minutes then remove the patch.

3- SMOOTHING

Using repetitive, simultaneous strokes, smooth the excess product from the inside corner of the eye towards the outside to drain and decongest the eye contour area (arches and bags).

4- TAPPING MOVEMENTS

Again use rapid, gentle tapping movements to stimulate the contour of both eyes simultaneously and ensure optimum penetration.
